# Ibrahim Shehadeh

Full Stack Web Developer | JavaScript, React, Svelte, Node.js

Hamilton, ON - (705)-917-0558 - [Ibrahim16Shehadeh@gmail.com](mailto:Ibrahim16Shehadeh@gmail.com) - [LinkedIn](#) - [Portfolio](#)

## Summary

Full Stack Developer with 3+ years of hands-on experience delivering scalable, cost-saving software for businesses and internal operations teams. Specializes in modern web frameworks (Svelte, Next.js), cloud platforms (AWS, Vercel), and backend systems (Node.js, PostgreSQL, MongoDB). Led the design and deployment of inventory and visualization tools that improved efficiency and reduced overhead for both private sector and municipal clients.

## Technical Skills

**Languages & Skills**: JavaScript, TypeScript, HTML, CSS, SCSS, TailwindCSS, C#, Dart
**Frameworks & Libraries:** Svelte, React, Next.js, Express.js, .NET, Bootstrap, Panellum
**Databases:** MongoDB, PostgreSQL, Neon, Local Storage
**APIs & Web Technologies:** RESTful APIs, JSON, HTTP, the DOM, Browser Compatibility
**DevOps:** AWS (S3, Lambda, EC2, API Gateway), Vercel, Netlify, GitHub Actions (CI/CD)
**Tools & Platforms:** Git, Figma, Illustrator, Lucidchart, Postman, Linux
**Soft Skills:** Cross-functional collaboration, Leadership & Training, Client Communication, Time Management, Debugging & Troubleshooting

## Professional Experience

### Render Developments - *Web Application Developer (Contract)*
*May 2025 - Present, Oshawa, ON*
- Designed UI concepts for virtual tours in Figma, focusing on clean, intuitive layouts.
- Implemented responsive designs for desktop and mobile using JavaScript, HTML, and CSS.
- Built and published interactive virtual tours using Panellum, Google Cloud Storage, and WordPress embeds.
- Handled bug fixes and browser issues using browser developer tools.
- Quoted timelines and delivered invoices for new builds and feature changes.

### Printhub.Ink - *Full-Stack Developer (Contract)*
*Aug 2024 - Present, Peterborough, ON*
- Designed and launched inventory management software that reduced overspending by 20%.
- Created a mobile-first UI, resulting in 100% adoption by production staff.
- Engineered scalable web apps using Svelte and React for internal operations and sales tools.
- Built RESTful APIs with Node.js and MongoDB; later migrated to Neon/PostgreSQL for improved performance.
- Deployed apps using Vercel with automated CI/CD pipelines.
- Identified and eliminated workflow bottlenecks through advanced debugging and refactoring.
- Supervised and trained staff, improving onboarding and team productivity.
- Acted as liaison between sales, management, and production teams.

## Education

### Durham College - *Advanced Diploma in Computer Programming & Analysis*
*Graduated Jun 2025, Oshawa, ON*
- Led a 3-week project to build a modular Korean learning app in Flutter; guided UI/UX and switched to local storage to reduce complexity.
- Built and deployed secure REST APIs with authentication.
- Developed frontends in Svelte and React.
- Designed and optimized SQL databases.
- Completed AWS Academy courses: Cloud Foundations, Developer, Operations.
